20.VENTI COLLECTION

Designed by 967ARCH

20.Venti is an office system with a linear, iconic, versatile design created by 967arch.
With a light structure, a contrast between full and empty, and quality materials and finishes, this is a contemporary interpretation of the desk, the archetypical workstation. Available in a wide range of sizes and colours, 20.Venti includes individual tables, double and quadruple workstations, a high workstation, and flexible combinations designed to adapt to spaces and the teams that use them.
Combined with various accessories, 20.Venti allows to create a welcoming, functional space for working agilely and productively. In 2020, 20.Venti was selected for the 26th ADI Compasso d'Oro.

Discover "20.Venti Home" and "Home Light", the new compact and versatile options of the iconic 20.Venti family.

20.VENTI

FRAME AND TOP

Steel frame and legs, section 20x20 mm, painted with epoxy powder in the matt colours white and graphite grey. Structural wireway made of medium density fibreboard two-tone surfaced panels, thickness 2 cm, with the outside in matt colours white or graphite grey, and the inside always in medium grey. Tops are made of medium density fibreboard panels covered with Fenix NTM laminate in the matt colours white, light grey, medium grey and black.

Fenix NTM top in the colours pale grey and medium grey certified in compliance with standard UNI EN 13772 and UNI EN 13721.

DIMENSIONS AND TYPES

. Single desk H75, dim. 90x160, 90x180 and 90x200 cm.
. Workstation two users H75, dim. 160x160 and 160x180 cm.
. Workstation four users H75, dim. 160x320 or 160x360 cm.
. Flex workstation H75, table depth 160 cm, in sizes that can be customised as required by using terminal or intermediate modules in the lengths 160 or 180 cm.
. High workstation H110, dim. 100x160, 100x180 and 100x200 cm.

Adjustable aluminium foot with range of +/- 1 cm.
The single desk, the workstation two and four users and the workstation Flex have a structural wireway that can be accessed by sliding the top. It can be used for electrification and cables.

ACCESSORIES

Open compartment, sound-absorption screen, PC stand with castors, wireway sleeve, stationary and document holder.
Available by project, partition with steel cables and two accessories for the structural wireway: the valet tray shelf and laptop or tablet bag (for min. 20 pieces).

20.VENTI LIGHT
